

2026 EFAT-ESLAV webinar series

The European Federation of Animal Technologists ([EFAT](#)) and the European Society of Laboratory Animal Veterinarians ([ESLAV](#)) organize a series of webinars for both lab animal techs and veterinarians. The aim is to share different perspective and strengthen the collaboration between these two important roles.

WEBINARS OVERVIEW

4th February, 12 pm CET
Experimental Design

Registration available [here](#)

19th February, 12 pm CET
Training in rodents

Registration available [here](#)

3rd March, 12 pm CET
Large animal refinement

Registration available [here](#)

17th March, 12 pm CET
Aquatics

Registration available [here](#)

Zoe Windsor : Overcoming perceived barriers in technicians led experiments
Matthew Leach: What vets and techs can do to influence/ improve experimental design
